Customer Reviews

I was aggravated after I purchased this for my kindle to find out it was not the software. They make it look and sound like it is. I feel I was ripped off. Not happy. Wasn't even a good book.

There are only two games I play. Puzzy words and Word Battle from facebook. My kindle keeps asking me to download the correct version flash player. I have down loaded all of them and none work.

I was able to follow the instructions pretty well with a few rereading. Any body can do it with putting aside some time if you really want this particular app. Oh, and by the way ...I can't wait to try it out!

Didn't work as promised installing dolphin browser really messed things up I have to delete everything on my kindle and start over the \$7.50 was very costly

The steps end as Google has taken down the access you need because it violates its user agreements. Lost my money on this purchase.

Wish it was a down load It wasn't clear what was offered. I did I nit want a book I thought I was ordering a down load

Some of the links did not work. Google turned them off. Would not allow download and of course not work.
