Average Customer Review: 3.0 out of 5 stars Â Â See all reviews Â (5 customer reviews)

Best Sellers Rank: #253,349 in Books (See Top 100 in Books) #90 in Â Books > Computers & Technology > Graphics & Design > Desktop Publishing #3157 in Â Books > Textbooks > Computer Science

Customer Reviews

This manual was easy to follow, gave detailed instructions and tips. It did not matter whether you were using Windows 7 or Windows 8 as instructions were clear for both. I would have liked to be shown a little more on doing things yourself in lieu of having the pre-made copy and paste inserts, but for an introductory book it was well written. I was able to put a detailed newsletter together after completing the book.

No it didn't I am a student why would I need intro ? I need the whole book I know I haven't returned

it yet but I had to order all over made me suffer in classroom, should not be in same section as textbooks, I have history of ordering books

Be careful when purchasing this book. I thought I was buying this book in the "Complete" not "Introductory" copy. The COVERS ARE IDENTICAL except for that small word at the bottom. I thought it was too good a price.

the book was not what I expected I needed the entire book not just the 3 chapters so now i have to buy another

Very satisfied
