## Customer Reviews

This book probably has some good recipes if I knew just how to interpret them. I decided "1 piece of beaten egg" meant "1 egg, beaten" but what does 1 piece of chopped onion mean? Is it a chopped

onion or just a piece of onion that has been chopped? How big an onion? How big a piece? I give up. The book reads like a computer translation from Chinese.

U know the situation. U have weekend guests coming over and one of them is diabetic. U find yourself scurrying around on the Nernst trying to put together a barrage of meal recipes for the weekend. Yup, and we were tired of it. So the wife and I decided to grab this book. Simply put when u looking for a recipe book, u look for the following: delicious recipes, variety, quick and easy, clear cut directions, easily obtainable ingredients. Did this cookbook have all that? Yes! Is it a great book? Yes! Would I recommend it? Absolutely!!!!

Diabetes Diet Cookbook: Delicious Low Carb Recipes For Diabetics by Jen Porter is a comprehensive recipe book filled with dishes that are easy to prepare, look delicious to eat, and will be healthy for anyone suffering from diabetes. The book is divided into five parts: soup recipes, chicken recipes, seafood recipes, vegetable recipes and even dessert recipes. Each section contains a good variety of dishes. There are at least five recipes per section, and the recipes are made with ingredients that should be easy to find at any local market. The instructions tend to be very simple and easy to follow, mainly consisting of just a few basic steps. The dishes are also varied, ensuring that you won't be preparing the same thing over and over again. Finding recipes suitable for diabetics can be a difficult task, so this book is sure to become a go-to resource for anyone who is cooking for someone with diabetes.

There aren't too many recipes here but I also remembered that I got this for free and now it only costs a dollar. That's great considering the focus on the diabetic. My grandpa has that problem and not only did these dishes help but he also liked the flavors and variety. I liked these dishes myself and realized they can benefit me too just because of the low carb theme which I heard helps me

lose weight. I'm still carb cycling so I'll see if these dishes help.

I think the problem with being overweight is on the first place, because this issue affects every third. It is very important to keep myself in shape and to eat healthy food. All important tips will help you this book. I learned a lot in this book, and the diet on which I sit because of this book. Try to find and read this book, it will definitely help you to review your nutrition. Put five stars to this book.

Fantastic recipes and ideas for meals. I was newly diagnosed and this book really showed I could still eat great and savory food while sticking to a diabetic diet. We diabetics know what we should be eating, but the amounts can be a pain. Thank you for making it so easy to plan a meal to feed the whole family.

So, there are flavorful food for diabetics after all. I am happy to learn new recipes that are good for my diabetic family members. I like the introduction of the author on every recipe. It makes me feel at ease that I can cook the dishes here with ease. It is good to know that being diabetic does not mean that food enjoyment should also stop. These recipes will surely be of great help to our family.
