Customer Reviews

This book is what you need. You are wasting your time. Get this book and start learning how to sew. It even teaches you how to sew some basic things like buttonholes and sleeves and even zippers. This book gives information on the most proficient method to utilize your own particular apparel as examples for sewing new attire pieces. I have realized some new hand join.

This comprehensive book breaks down all of the terms, tools, and skills necessary to become an expert seamstress. This truly is the definitive guide to hand and machine sewing. Whether you consider yourself a newbie sewer or an expert, having this book on your sewing room shelf will come in handy. Have a project that calls for a blanket stitch and can't remember how to do it? Look it up in Sewing Made Simple. Having problems with your sewing machine tension? Look it up in Sewing Made Simple. Want inspiration for an afternoon sewing project? Browse the many projects in Sewing Made Simple. Can you tell? I recommend this book.

I'm a complete sewing noob and this book educated me as if it took me through a full course through the basis of sewing. And I had a fun time reading it too. It defined all the terms I was previously unfamiliar with and it offered all sorts of diagrams and pictures to keep me interested in learning more. Learning curve looked kinda steep at first but this guide has a nice pacing and I like how the different sections were divided into digestible pieces.

If you want to know how to sew, this book is the perfect guide for how to get started. It's easy to understand and even includes a list of terms at the beginning for those who don't already know them. The first half is full of information about sewing machine parts and usage, and the second half has instructions for actual sewing projects like baby blankets, aprons, and a coin purse. This book is

very practical to learn how to sewing. This is a clear guide for beginners like me. I was able to learn all the terms to use the patterns with the sewing machine just by reading within this guide. This guide is a great resource as sewing reference. The book also teaches how to save money in the sewing process. You will not learn overnight but the book will give a heads up in the sewing world. If you're new at sewing, you'll want this book.

This far reaching book separates the greater part of the terms, instruments, and aptitudes important to wind up a specialist needle worker. This really is the complete manual for hand and machine sewing. Whether you see yourself as an amateur sewer or a specialist, having this book on your sewing room rack will prove to be useful. This book gives data on the most capable technique to use your own specific clothing as illustrations for sewing new clothing pieces. I generally needed to figure out how to sew and this book has been exceptionally useful to me. I truly thought sewing was troublesome yet this book altered my opinion. It gave a great deal of esteemed data and tips on the best way to do estimations, the right instruments required and the various types of fabrics to be utilized.

This book is full of insight, useful tips, and suggestions from experienced that will help you successfully complete your first sewing project stress free. There are so many paths to follow with sewing your new skill ranging from quilt art to wearable art to even vintage, applique and lingerie. Not only will you have the opportunity to create a new world using your creative ideas, but you will also get a steady and reliable guide. I will definitely recommend this book to anyone who is interested. Creating something new gives a chance of creating something unique. It's easy to understand and even includes a list of terms at the beginning for those who don't already know them.

This book is very helpful to a beginners and quick to read. This book explains a lot for those learning or considering learning to sew, it's a very detailed instruction book, it is so useful I wish I had this book when I started sewing because it has so much information you oughta know, the patterns that are included help you understand better some techniques, I recommend this book.

I enjoy reading this book, I want learn how to sew and this book has been very helpful to me. I really thought sewing was difficult but this book changed my mind. The details on what materials and tools to use; proper measurements depending on what to sew and what other essential "to-do" must be

executed to make each piece a lovely masterpiece.
