Bouquet Chic: Wedding Flowers

Synopsis

Make a beautiful bouquet . . . and make a truly personal statement! Step-by-steps for bouquets that look better than the florist's! How to draw inspiration from jewelry, heritage, places, memories, more! Lavish enough for spendy brides, lovely enough for frugal brides! Why settle for a same-old same-old wedding bouquet that matches the tablecloths at the catering hall? With a few key techniques, some fresh flowers, and Bouquet Chic, any bride can create her own magnificent wedding bouquet that makes a truly personal statement. Author Kimberly Aurora Kapur urges readers to be inspired by the bride's gown and jewelry, sleek contemporary looks for both flowers and embellishments, the location of the wedding, and unique color choices. Kapur's designs are beautiful, romantic, and feminine, blossoming with unusual styling, striking colors, and unconventional details such as jeweled inserts, feathers, shells, and sumptuous ribbons. An overview of essential techniques, plus dozens of step-by-steps and how-tos, make this the one book every bride needs to make her day unique.

I must have said 'Wow!' twenty times *before* page 20! This book is visually stunning, well-written, and inspiring in a way that few other bridal floral books have achieved. At once modern and fashionable, the looks are achievable no matter where you stand on the Chic Scale. This is THE book you want to buy for the best images to show your own floral designer, and THE book you want to flip through for a boost on days when wedding planning is stressful. It's impossible to be tense

when you're looking at vibrant orange bouquets and romantic sage green and white cascades. The text is brilliant, the production quality brilliant, and you'll even find inspiration for your wedding PHOTOS...surely, you'll open this book in front of your photographer and say "I want a shot like THIS!" Bouquet Chic is a must-have!

This is the best bouquet book that I have ever come upon. It has everything - gorgeous photos to enjoy and get inspiration from and instructions to do them yourself. This is a must have for wedding/party planners, their clients, or any flower enthusiast. I think it's pretty enough for permanent residence on my coffee table! Bravo!

I believe anyone who picks up this book will be stunned by the beauty and genius behind the authors eye for flowers. The bonus is her descriptions and explanations that make it easy for a creativeless, flower novice to understand her process. I would recommend this book to anyone, not just people interested in wedding flowers.

This book was the inspiration to my bouquet, I didn't need to look no further, it gave me an understanding on flowers the seasons they grow and all the different bouquets, I found mine and was complimented by many

Love the book, it is current and has gorgeous bouquets. I am a florist in McFarland WI, and am using the book to show new styles to my brides. Good stuff in here!
