## Customer Reviews

This is a great book for all married couples, whether newlyweds or those married 50 years. If you are in a relationship where you do not talk about money you must read this book. You will learn how to get the discussion started and what to talk about. Who pays the bills and why do they? Is what you want to buy worth spending the money on? I gave this book 5/5 stars. I enjoyed each chapter and thought the book was well written and easy to understand. I liked the chapter from the wife at the end of the book. I thought her perspective was very helpful. This chapter was also written in very easy to understand language. This book does not come across preachy but rather has a very informative and helpful design. I would like to thank NetGalley and the publisher for the copy of this book I enjoyed reading. I gave an honest review based on my opinion of what I read.
